

**7 Reasons
Your
Business
Might Be
Vulnerable.**

SCAMS[®]

1. **Submarine Cable Systems are very vulnerable to cyberattacks intended to cause global interruption.**

(STABLE SEAS)

SCOMMS

2. **Security threats
against Industrial
Control Systems
&
Operational
Technology
more than
tripled in 2020.**

(YEAR IN REVIEW, DRAGOS INC)

SCADA

3.

**95% of
cybersecurity
breaches are
caused by
human error.**

(CYBINT)

web
downloads.

(HP)

SCOMMS

6.

**It takes about
6.5 months to
detect a cyber
breach.**

(IBM)

SCOTTS

7.

**43% Small
Businesses
have **no**
cybersecurity
defense in
place.**

(B U L L G U A R D)

SCOTT'S

Bottom Line:

- **Attacks are increasing.**
- **Defenses are insufficient.**
- **Errors are common.**

SCAMS[®]

What to do?

- **Prepare now.**
- **Assess Risk:**
systems, networks,
employees,
contractors,
remote work.
- **Use Tested & Trusted Systems**
compliant with
government-level
security standards.
